

Notice for the academic year 2024-2025

concerning the allocation of beds at **Camplus Residences** for **University Students**

The **Camplus Foundation** operates in the sector of **student hospitality**, supporting students' academic careers through the management of **University Residences** ("Residences"). In pursuit of this objective, Fondazione Camplus has developed a residential offer to create optimal living and study conditions for the community of Italian and International Students.

This Notice (the "Notice") concerns **21 Residences in 11 Italian cities** (Bologna, Ferrara, L'Aquila, Milan, Padua, Parma, Pavia, Rome, Turin, Venice and Verona), managed by the Camplus Foundation and **funded by the European Union "NextGenerationEU"** as part of the National Recovery and Resilience Plan (NRRP) – Mission 4 – Component 1 – Reform 1.7 "Student Housing and Reform of Student Housing Legislation".

On this basis, the Camplus Foundation has now issued the following notice, which is addressed exclusively to **University Students** ("Students"), concerning access to the Residences for **the Academic Year 2024-2025** (1 September 2024 - 31 August 2025).

To promote the continuity of each Student's university experience at the Residences, the Notice provides for a 12-month duration of the Allocation, starting from 1 September 2024, until 31 August 2025.

The Student is free to indicate their expected arrival date and the desired period of stay in the application, but the Camplus Foundation can only consider applications relating to a period of less than 12 months, or with an arrival date other than 1 September 2024, on the basis of the residual availability of beds.

3.3 RANKING

Campus Foundation will draw up a ranking for Reconfirmed Students, to whom beds will be allocated on a priority basis, and a ranking for the other Allocation applications.

Places are awarded on the basis of the merit criteria listed below. Precedence will be given to Students wishing to remain at the Residence for an entire academic year.

Reconfirmed Students

- ◆ if the Student is enrolled in the first year of the university course, the **grade obtained in their high school diploma or equivalent in hundredths, will be taken into account** (e.g. 100/100 corresponds to 100 points or 25/25 school credits correspond to 100 points if you have not yet obtained your diploma);
- ◆ for Students enrolling in course years after the first year, or on master's degree programmes, the **arithmetical average grade** indicated at the time of completion of the application will be taken into account. The student must indicate, in the application for a place, the arithmetical average of the examinations taken up until the date of submission of the application;
- ◆ Students enrolled on a master's or postgraduate degree course or a university specialisation course will have their **first degree grade** taken into account (e.g. 110/110 corresponds to 100 points), as indicated when submitting the application for a place.

In the event of a tie (same score), priority will be given to the candidate with the longest stay at the Campus Residence; if the scores are still identical, priority will be given to the younger candidate and if there is still no difference in score, precedence will be given to the Application submitted earlier.

If any of the merit details are missing, the Student will not be excluded but will not be able to obtain any merit score.

New Italian Students

- ◆ if the Student enrolls in years after the first year, or on master's degree programmes, the **arithmetical average grade** obtained up to the date of submission of the Application will be taken into account, based on all the exams completed by the date indicated;
- ◆ Students enrolled on a master's or postgraduate degree course or a university specialisation course will have their **first degree grade** taken into account (e.g. 110/110 corresponds to 100 points);
- ◆ if the Student is enrolled in the first year of the university course, the **grade obtained in their high school diploma or the third and fourth year school credits in hundredths, will be taken into account** (e.g. 100/100 corresponds to 100 points, 25/25 school credits correspond to 100 points if you have not yet obtained your diploma).

In the event of a tie (same score), priority will be given to the younger candidate. If the scores are still identical, precedence will be given to the Application submitted earlier.

If any of the merit details are missing, the Student will not be excluded but will not be able to obtain any merit score.

New International Students

Scores for New International Students will be awarded on the basis of their knowledge of the Italian language and/or knowledge of a language other than their native tongue.

The score, based on the language certifications, will be assigned according to the following scheme:

ITALIAN		OTHER LANGUAGES	
C2	50	C2	50
C1	40	C1	40
B2	30	B2	30
B1	20	B1	20
A2	10	A2	10

In the event of a tie (same score), priority will be given to the younger candidate. If the scores are still identical, precedence will be given to the Application submitted earlier.

If any of the merit details are missing, the Student will not be excluded but will not be able to obtain any merit score.

3.4 NOTIFICATION OF ELIGIBILITY AND ACCEPTANCE OF ALLOCATION

Once the ranking has been drawn up, Camplus Management will send each Student an email ("Allocation Email") advising them of the result of their Application, with details of their eligibility status. The Allocation Email will only be sent to the email address given on the application form.

The Student is required to confirm their acceptance of the bed ("Acceptance") within 2 days, under penalty of exclusion, from the date of receipt of the Allocation Email, according to the instructions given in that email.

3.5. CONTRACT

The relationship between Camplus Foundation and the Student will be governed by a specific contract (the "Contract"); the Contract must be signed by the Student within the time and in the manner indicated by Camplus Management in the notice, under penalty of exclusion.

The Contract may allow for tax allowances under the Italian tax rules, in accordance with the terms and conditions stipulated by law.

3.6. LATE APPLICATIONS

At the end of the Allocation Period, completed with the signing of the Contract by the Student, if any places remain available for allocation to New Students at the Residences listed in the Notice, Camplus Foundation may consider any applications received after the end of the application period. In this case, in order to reduce Allocation times and with a view to welcoming as many Students as possible, the available places will be allocated on a first-come first-served basis, after the Allocation criteria have been checked.

Beds will be allocated until availability is exhausted and will be included in the ranking. Camplus Foundation will send the student a notice of allocation, by email.

The eligible Student is required to accept the allocated place within 1 day after the email is sent, under penalty of exclusion. If accepted within the terms indicated, Camplus Management will send the Student the Contract for signature, according to the stated terms and conditions, under penalty of exclusion.

4. AGREEMENTS WITH RIGHT-TO-STUDY ORGANISATIONS

The Camplus Foundation, having among its purposes the social integration and cultural education of young university students and therefore makes an annual contribution to the support of deserving and/or underprivileged Students, through agreements for the allocation of beds to the local **right-to-study organisations**.

The purpose of these agreements is to allocate beds on the basis of the rankings drawn up by the right-to-study organisations.

The agreements in place between the Camplus Foundation and the right-to-study organisations are indicated in detail in the attachments relating to each Residence. In this case, the Application for Allocation must be submitted through the appropriate calls and/or notices published on the websites of the right-to-study organisations.
