camplus

ATTACHMENT E - INTEGRATION

Criteria for calculating the integration as stated in Article 4.6 of the Contract

The Integration referred to in paragraph 4.6 of the Contract shall be equal to the sum of the Electricity Integration, Gas Integration, or District Heating Integration, defined and determined as follows:

1. ELECTRICITY INTEGRATION QUOTA

The Fee referred to in paragraph 4.1 of the Contract has been deterministically established assuming, at the date of signing this Contract, a reference cost of electricity amounting to **Euro [160]/MWh** (the **"Base Cost EE"**).
In the event that variations in the reference market for electricity occur during the duration of the Contract, resulting in an increase in the **National Single Price** (calculated as the average of monthly variations during the reference months, referred to as **"Average PUN"**), compared to the Base Cost EE (the **"EE Increment"**), with the detection of the EE Increment 30 days prior to the contractual expiry (the Average PUN, as detected above, will be considered for the entire duration of the contract), the Fee mentioned in the previous paragraph 4.1 shall be subject to integration (the **"EE Integration"**), according to the following scheme:

ELECTRICITY				
MIN	MAX	Amount Guest UP TO 90 DAYS	Amount Guest FROM 91 TO 240 DAYS	Amount Guest FROM 241 TO 365 DAYS
160,01	161	100 €	100 €	100 €
161,01	162	110 €	110 €	110 €
162,01	163	120 €	120 €	120 €
163,01	164	130 €	130 €	130 €
164,01	165	140 €	140 €	140 €
165,01	166	150 €	150 €	150 €
166,01	167	160 €	160 €	160 €

[1] *The periodic trend of the PUN can be checked on the website: https://www.mercatoelettrico.org/it/Statistiche/ME/DatiSintesi.aspx*

The Integration referred to in paragraph 4.6 of the Contract shall be equal to the sum of the Electricity Integration, Gas Integration, or District Heating Integration, defined and determined as follows:

2. NATURAL GAS INTEGRATION QUOTA

The Fee referred to in paragraph 4.1 of the Contract has been deterministically established assuming, at the date of signing this Contract, a reference cost of natural gas amounting to **Euro [60]/MWh** (the **"Base Cost Gas"**).
In the event that variations in the reference market for natural gas occur during the duration of the Contract, resulting in an increase in the values of the **MGP-GAS** index (calculated as the average of monthly variations during the reference months, referred to as **"Average MGP"**), compared to the Base Cost Gas (the "**Gas Increment"**), with the detection of the EE Increment 30 days prior to the contractual expiry (the Average MGP, as detected above, will be considered for the entire duration of the contract), the Fee mentioned in the previous paragraph 4.1 shall be subject to integration (the **"Gas Integration"**), according to the following scheme:

NATURAL GAS				
MIN	MAX	Amount Guest UP TO 90 DAYS	Amount Guest FROM 91 TO 240 DAYS	Amount Guest FROM 241 TO 365 DAYS
60,01	61	100 €	100 €	100 €
61,01	62	125 €	125 €	125 €
62,01	63	150 €	150 €	150 €
63,01	64	175 €	175 €	175 €
64,01	65	200 €	200 €	200 €
65,01	66	225 €	225 €	225 €
66,01	67	250 €	250 €	250 €
