This support is provided in the form of student housing agreements with **right-to-study organisations**, in accordance with article 4 below. Further fee reductions may also be available, at the discretion of the Foundation's Board of Directors.

More specifically, the Camplus Foundation offers students **3 income-based fee reductions**. All students who meet the following requirements can apply for the fee reductions **by April 07, 2026**, by sending an email to the address given in art. 7 below.

Requirements for access to income-based fee reductions:

- ◆ I.S.E.E (eligible for university entitlement benefits): Up to Euro 28,000¹
- ◆ Continue to meet the requirements for renewal (from the 2nd year in Camplus);
- ◆ Sign a 12-month contract with Camplus for the 2026-2027 academic year.

From €16,000.01 to €28,000.00	4%

The Foundation will award the income-based fee reductions **by April 15, 2026**. Reductions will be allocated in ascending order of the I.S.E.E. scores. In the case of equal ISEE scores, priority will be given to the candidate who has been staying at the Camplus Residence for the longest period of time; if the scores are still equal, priority will be given to the youngest candidate and if the candidates are still equal, priority will be given to the Application with the earliest submission date.

¹The I.S.E.E. certification is issued based on the Single Self Declaration, which must be filled in and delivered to a Tax Assistance Centre (CAF) or to the INPS office responsible for the region or municipality of residence. With regard to I.S.E.E. certification, please note that the income, property and assets data refer to the year 2024 (Italian Decree Law 101 of 03/09/2019).

I.S.E.E. certificates with omissions and/or discrepancies found after checking by INPS (Italian National Social Security Institute) will not be accepted. The student must then resubmit the I.S.E.E. certificate and the "DSU" (self-declaration) after any discrepancies have been corrected.

Camplus Foundation will draw up a ranking for Resident Students, to whom beds will be allocated on a priority basis, and a ranking for the other Allocation applications.

The applications for assignment submitted by new students between March 2, 2026, and March 16, 2026, may be reviewed and assigned starting from March 17, 2026, limited to the places made available following the withdrawal of reconfirmations.

From March 31, 2026, the remaining places will continue to be assigned.

Places are awarded on the basis of the merit criteria listed below. Precedence will be given to Students wishing to remain at the Residence for an entire academic year.

Resident Students

- ◆ if the Student is enrolled in the first year of the university course, the **grade obtained in their secondary school diploma or equivalent in hundredths, will be taken into account** (e.g. 100/100 corresponds to 100 points, or 25/25 school credits correspond to 100 points if you have not yet obtained your diploma);
- ◆ for Students enrolling in course years after the first year, or on master's degree programmes, the **arithmetical average grade** indicated at the time of completion of the application will be taken into account. The student must indicate on their application the arithmetical average of the examinations taken up until the date of submission of the application;
- ◆ for students enrolled in a master's or doctoral degree programme or specialised school, the **degree grade** will be taken into account (e.g. 110/110 corresponds to 100 points), as indicated when submitting the application for a place.

In the event of a tie (same score), priority will be given to the candidate with the longest stay at the Camplus Residence; if the scores are still identical, priority will be given to the younger candidate and if there is still no difference in score, precedence will be given to the Application submitted earlier.

If any of the academic grade details are missing, even if only partial, the Student will not be excluded but will not be able to obtain any merit score.

New Italian Students

- ◆ if the Student enrolls in years after the first year, or on a master's degree programme, the **arithmetical average grade** obtained up to the date of submission of the Application will be taken into account, based on all the exams completed by the date indicated;
- ◆ for students enrolled in a master's or doctoral degree programme or specialised school, **the degree grade** will be taken into account (e.g. 110/110 corresponds to 100 points);
- ◆ if the Student is enrolled in the first year of the university course, the **grade obtained in their high school diploma or the third and fourth year school credits in hundredths, will be taken into account** (e.g. 100/100 corresponds to 100 points, 25/25 school credits correspond to 100 points if you have not yet obtained your diploma).

The allocation criteria will take into account the availability, in relation to the type of room and the sex of the students already occupying the rooms.

In the event of a tie (same score), priority will be given to the younger candidate. If the scores are still identical, precedence will be given to the Application submitted earlier.

If any of the academic grade details are missing, the Student will not be excluded but will not be able to obtain any merit score.

New International Students

Scores for New International Students will be awarded on the basis of their knowledge of the Italian language and/or knowledge of a language other than their native tongue.

On the basis of language certifications, the merit score will be awarded according to the following scheme:

ITALIAN		OTHER LANGUAGE	
C2	50	C2	50
C1	40	C1	40
B2	30	B2	30
B1	20	B1	20
A2	10	A2	10

The allocation criteria will take into account the availability, in relation to the type of room and the sex of the students already occupying the rooms.

In the event of a tie (same score), priority will be given to the younger candidate. If the scores are still identical, precedence will be given to the Application submitted earlier.

If any of the academic grade details are missing, the Student will not be excluded but will not be able to obtain any merit score.

3.4 NOTIFICATION OF ELIGIBILITY AND ACCEPTANCE OF ALLOCATION

Once the ranking has been drawn up, Camplus Management will send each Student an email ("Allocation Email") advising them of the result of their Application, with details of their eligibility status. The Allocation Email will only be sent to the email address given on the application form.

The Student is required to confirm their acceptance of the bed (the "Acceptance") **within 2 days**, under penalty of exclusion, from the date of receipt of the Allocation Email, according to the instructions given in that email.

3.5. CONTRACT

The relationship between the Camplus Foundation and the Student will be governed by a specific contract (the "Contract"); the Contract must be signed by the Student according to the terms indicated by Camplus Management in the notice, under penalty of exclusion.

The Contract may allow for tax allowances under Italian tax rules, in accordance with the terms and conditions stipulated by law.

3.6. LATE APPLICATIONS

At the end of the Allocation Period, which is the date on which the Contract is signed by the Student, if any places remain available for allocation to New Students at the Residences listed in the Notice, Camplus Foundation may consider applications received after the end of the application period. In this case, in order to reduce Allocation times and with a view to welcoming as many Students as possible, the available places will be allocated on a first-come first-served basis, after the Allocation criteria have been checked.

Beds will be allocated until availability is exhausted and will be included in the ranking. Camplus Foundation will send the student a notice of allocation, by email.

The eligible Student is required to accept the allocated place within 1 day of the email being sent, under penalty of exclusion. If accepted within the terms indicated, Camplus Management will send the Student the Contract for signature, according to the stated terms and conditions, under penalty of exclusion.

4. AGREEMENTS WITH RIGHT-TO-STUDY ORGANISATIONS

The purposes of the Camplus Foundation include the social integration and cultural education of young university students. The Foundation therefore makes an annual contribution to the support of deserving and/or disadvantaged Students, through student housing agreements with local **Right-to-Study Organisations**.

The purpose of these agreements is to allocate beds on the basis of the rankings drawn up by the Right-to-Study Organisations.

The Camplus Bovisa Residence is a property of Camplus International Srl managed by the Camplus Foundation, which also promoted the Notice.

As part of its support activities, the Camplus Foundation reserves **75 beds in University Residences in the city of Milan for deserving and/or disadvantaged students selected by the University of Milan (UNIMI) and Bicocca University.**

5. TRUTHFULNESS OF STUDENT DECLARATIONS

The person declaring the information is responsible for all declarations made. Any benefits obtained will be forfeited if the information declared is found to be false or untrue. Camplus, using the means at its disposal, may carry out random checks on Student declarations, and may request additional documentation, where necessary.
